LIVE DOWNLOADS

The taping of this show was made on the highest quality source at the time of its recording in 1985 - on Rudy Houston's Nakamichi 550 Portable. Since the show was recorded onto cassette, please understand that there were limitations with regard to tape flip. Additionally, "Hey Joe" was taken from an alternate source because it was missing from the master source. In the spirit of archiving the show in its entirety, it is included here. Enjoy this masterpiece - as it's one of the finest shows from the Radiators Tulane glory days of the mid-80s.
