*This sequence of tuna writ & recorded between June 6 and August 25, 2015
at the studio of the declacified Lopezian...*

*This one's for John Swenson (that Crawdaddy Daddy who can't seem to help
himself - he just keeps on popping up) and all the other survivors of my
generation - they call us "Boomers", but aren't we just more like "Busters"?
(The Man can't bust our music!)*
